

Worship Services @ the Auditorium

Safe management rules to take note of:

- (1) **Church members are encouraged to get vaccinated if they can.** (Session will see how best to accommodate non-vaccinated members so that they can also physically participate in the Lord's Day services.)
- (2) Since worshippers have to be segregated into zones, **members cannot choose where they want to sit.** Seats have to be occupied zone by zone. Please cooperate with the ushers who will direct you to your seats. **Consideration will be given to those with special needs** (eg the handicapped, elderly, and parents with infants and toddlers).
- (3) To prevent crowding, **worshippers are not to mingle or chit-chat at the lobby area before and after the services.** They should leave the premises as soon as possible.
- (4) All persons present (except children below 6 years of age) must **wear a face mask at all times.** Young children are strongly encouraged to use a mask.
- (5) **Congregational singing is not permitted.** Sing in your heart or whisper sing to yourself.
